AETAS means age or era. Aetas pieces are timeless artifacts that represent eras past and future. Utilizing her background as a metal-smith, designer Laura Bridges fuses innovative metal and wax work with castings of natural objects to forge these unique and inspiring artifacts.

The Age of Mars collection is comprised of Aetas classics and represents an age of battle. Inspired by Incan warriors and futuristic shapes, Laura's original and most powerful inspiration, Nature, emerges in both texture and symbol. Tools and talismans for the modern day warrior, Aetas pieces are reverent symbols of Nature's power as a source of deep inner personal strength.
